Re: Tentative Approval to the Notice of Intention to Commence Large Mining Operations, Utah
Alunite Corporation, Blawn Mountain Mine, M/001/0082, Beaver County, Utah

Dear Ms. Dean:

I would like to give my support to approve the Notice of Intention to Commence Large Mining Operations for the Blawn Mountain Project. This Project will help to create many new jobs in Beaver and Iron The mine has a lengthy life span that will provide long-term job growth in rural Utah. There will also be great economic benefits to Utah businesses statewide.

I also believe that it will positively impact the lifestyle of the local population by providing more opportunities for education, job training, new skills training for high school and college students, and adults. The Blawn Mountain Project on State Lands will allow for substantial royalties to be realized for the future of the State's school children. Since the project will have little impact on the environment the State should vigorously support this project.

Thank you for allowing my comments on the value and need for this project.

Sincerely,

Mark J Wintch
